CBD & THC Balance
The CBD line comes in 3:2, 3:1, and 20:1 ratios of CBD to THC, meaning customers can fine tune their purchase to their individual cannabinoid preference.

Extracted From High CBD Cannabis Strains
Like every Leafwerx product, CBD Extracts are made from only cannabis. Each balance is extracted from a high CBD strain like Trident, Suzy Q, & Harlequin. This means you get a strain specific experience with the preferred CBD & THC balance.

Full Spectrum Extraction
The idea of full spectrum extraction is simple - preserve as much of the original complexion of the cannabis plant as possible. This includes cannabinoids, terpenes, flavonoid, and everything in between. This makes for a flower-like character, and a sustained entourage effect.

Choose your Mood with ease with cartridge strain stickers
Never deal with a mystery cartridge again! Simply peel off the strain sticker from the bottom right on the front of the cartridge, and stick it your cartridge so you can always choose your mood and strain with confidence.

CBD is one of the most alluring compounds found in cannabis, with anecdotal evidence of improving mental and physical well-being. Regardless of those claims, CBD has an unmistakable soothing effect.

We believe these effects are best paired with a bit of THC within a strain specific full spectrum extraction. Like the rest of our products, this emphasizes a powerful entourage effect, and delivers a product that preserves nature's original intentions.

Our CBD line features a selection of compelling strain ratios to enable each customer to customize their experience based on their specific needs. Suzy Q & Charlotte's Web offer a minimum psychoactive CBD effect at ~20:1 CBD to THC, Trident offers a unique CBD tilted experience at 3:1 CBD to THC, and Harlequin offers a balanced 3:2 CBD to THC ratio.

Whether for well-being or for a well-adjusted experience, Leafwerx CBD has the right fit for you.
